This term the grade Prep – 2 students have been looking at animals for our integrated topic!

We had an excursion to the Melbourne Zoo. At the Zoo we saw lots of animals, including the baby elephants, seals doing tricks, the huge lions and some of us were lucky enough to have a butterfly land on our hand!

We all had a fantastic time!

In class we have been doing a variety of activities about animals. We are writing letters home to our parents to ask them if we can have a zoo animal as a pet. We hope all of our parents write letters back to us to let us know what they think! We have also started our very first project! We are using the computers to help us complete this project. We are all very clever using computers!
Our grade Prep-2 classes love reading and we have started the Premiers Reading Challenge. We have been reading lots of exciting books together. Our goal is to read 30 books!!! WE CAN DO IT!!

During education week, we invited our parents along to share a book with us. We listened to lots of great stories and completed fun reading activities with them. It was wonderful to see so many parents in the classrooms!
