PREP - 2 SLIME MAKING MORNING

As part of the Prep - 2 unit of work on senses, the children all got to make slime in their classrooms. This proved to be a very valuable learning experience for the children and an enjoyable way to enhance their sensory awareness. The children had fun making their slime at school and we're sure the parents had a lovely time sharing in the fun at home.

I liked making slime because it was gooey - Monique R (Prep D)

I had fun mixing the slime – Grace (Prep C)

It was fun playing with the slime. I made green slime – Brayden (Prep C)

I liked putting my hands in the slime – Kobe (Prep D)
